# About us

National Cooperative Dairy Federation of India Limited (NCDFI), established in 1970, is an apex body of dairy/oil cooperatives. Its members include federal dairy cooperatives of states / union territories and National Dairy Development Board (NDDB) as its institutional member.

The primary objective of NCDFI is to facilitate the working of dairy cooperatives through coordination, networking and advocacy.

Major activities of the NCDFI are: Coordination of milk and milk product supplies to Defence Services; Providing Online Marketplace for Dairy Industry; and working for genetic improvement of cattle.

Total business transacted by the NCDFI during 2017-18 was ₹ 2,057 crores.

Adoption of technology and its application to ensure better returns to dairy cooperatives and in turn to milk producers has been the primary focus of NCDFI. One such initiative is NCDFI eMarket which was launched on June 10, 2015.

NCDFI eMarket facilitates the bulk sales of dairy commodities and procurement of required Raw/Packing/Chemicals for Dairy/Cattlefeed plants. This platform ensures transparent, fair, economic and faster dealings for all the members.

NCDEX eMarkets Ltd (NeML), provides technical & Business Development support to NCDFI eMarket.

“

A Rupee saved is a Rupee earned. With this age-old adage in mind, added with the advantage of exploring the national level markets enabled with technology and transparency, we at KMF adopted NCDFI eMarket since June 2015 initially to dispose the bulk stocks like SMP, WMP and Butter and later on to procure monthly raw material requirements of cattle feed plants.

Earlier, to procure cattle feed raw materials we used to rely upon eProcurement portal of Karnataka Government. Presently, we are conducting eAuctions on NCDFI eMarket platform along with eProcurement portal for the same requirement with a gap of one day, and comparing both the results to finalize least rates for KMF. This has proven to be a boon for KMF with regard to huge cost saving considering broad level of participation from across the nation.

Similarly, to dispose bulk stocks of SMP, WMP and Butter we are using NCDFI eMarket platform as it offers extensive level of transparency and nationwide participation.

Considering the advantages of NCDFI eMarket platform we are even contemplating to expand the service of NCDFI eMarket to procure annual requirements of packing material, minerals and chemicals.

We whole heartedly congratulate NCDFI for their cooperation throughout the journey so far. We wish this will continue for years to come which in turn benefit millions of milk producing farmers across the state the real owners of this cooperative setup there by helping KMF in its mission of bringing rural prosperity.
