# ACTIVITY REPORT

JUNE 2018

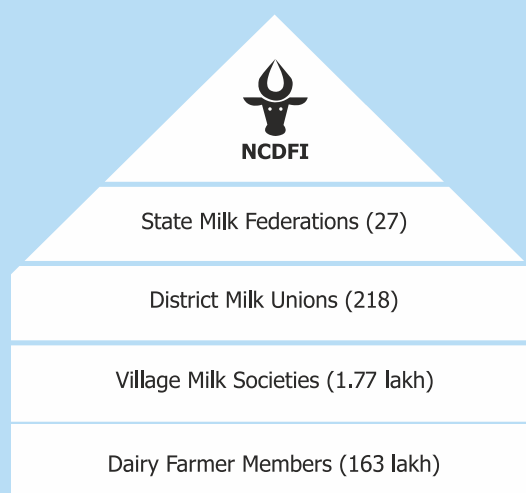

## About us

National Cooperative Dairy Federation of India Limited (NCDFI), established in 1970, is an apex body of dairy/oil cooperatives. Its members include federal dairy cooperatives of states / union territories and National Dairy Development Board (NDDB) as its institutional member.

The primary objective of NCDFI is to facilitate the working of dairy cooperatives through coordination, networking and advocacy.

Major activities of the NCDFI are: Coordination of milk and milk product supplies to Defence Services; Providing Online Marketplace for Dairy Industry; and working for genetic improvement of cattle.

Total business transacted by the NCDFI during 2017-18 was ₹ 2,057 crores.

Adoption of technology and its application to ensure better returns to dairy cooperatives and in turn to milk producers has been the primary focus of NCDFI. One such initiative is NCDFI eMarket which was launched on June 10, 2015.

NCDFI eMarket facilitates the bulk sales of dairy commodities and procurement of required Raw/Packing/Chemicals for Dairy/Cattlefeed plants. This platform ensures transparent, fair, economic and faster dealings for all the members.

NCDEX eMarkets Ltd (NeML), provides technical & Business Development support to NCDFI eMarket.

“

The initiative taken by the NCDFI in creating the eMarket platform for easing out the disposal process of milk products by dairy cooperatives in the country is laudable. This platform has helped our Federation in disposing off huge quantity of commodities since inception which in turn helped us in settling milk cost to producers in time at a period the dairy cooperatives were facing huge disposal problems in the wake of very bad market conditions prevailed globally for skimmed milk powder.

The success earned in disposal of SMP and Butter in this platform has encouraged NCDFI venture into the sale of milk and other milk products. The procurement of raw materials for the manufacture of cattle feed by cooperatives have also become easy and simple. This platform has created a mechanism for understanding the market trend and prices prevailing in the country which was absent in the past and created in fights among milk cooperatives in pricing decisions.

This emarket platform has considerably reduced the audit objections in cooperatives in marketing initiatives. I wish the NCDFI in achieving many more laurels in eMarket platform not only India but Global level also.
