1. General Conditions for Bidding

- a. The bidding system is at NCDFI eMarket, an internet platform. The site can be accessed through www.ncdfiemarket.com maintained by National Cooperative Dairy Federation of India Ltd (NCDFI) which will be the venue for online bid submission.
- b. All the registered members of the NCDFI eMarket are eligible to participate in Technical bid. The disqualified or debarred vendors are not allowed to participate in Technical / commercial price bid. The new vendors have to undergo usual registration/approval procedure stipulated by NCDFI eMarket.
- c. Prior intimation regarding the eAuction will be given to all the registered members at least 1 day prior to the auction date by email / Mobile App alerts. Union will not be responsible for any delay in communication in this regard on account of external reasons and therefore buyers are requested to visit the specific website periodically.
- d. All the timings of the eAuction system shall be based on the time indicated by the server hosting the bidding platform.
- e. The bid should be valid for 10 (ten) working days from the date of eAuction.

f. **EMD:**

EMD equivalent to 1% of the contract value is payable to the NCDFI eMarket before participating in the eAuction. EMD need to be deposited by the bidder in the NCDFI eMarket Escrow account.

EMD will be refunded to the bidder, after deduction of applicable transaction charges of NCDFI eMarket, after completion of contract. In case of default, available EMD will be transferred to DCMPU by the NCDFI eMarket.

g. **Transaction charges:**

Transaction charges will be levied by NCDFI eMarket from the winning bidder(s) on successful award of the contract.

Transaction charges @ 0.30% (Exclusive of GST) on total contract value shall be deducted from the deposited EMD at the NCDFI eMarket.

Transaction charges will not be levied for unsuccessful bidders.

- H. The successful bidder should become an associated member of respective District Cooperative Milk Producers Union as per Coop Act 1983 Rule 32 by Paying Rs.10/- (Ten only) to this Union which is non-refundable and do not fetch voting rights.

5.8 E.M.D. PAYABLE

- 5.8.1 Prior to eAuction, bidders need to deposit the required EMD amount in their ICICI Escrow Account with the NCDFI eMarket. EMD – 1% of the total trade value.
Bidder not depositing prescribed EMD will not be eligible for participating in the eAuction.
- 5.8.2 The firm shall not contract or assign (sublet) to any other party or parties the whole or any portions of the offer awarded by DCMPU.
- 5.8.3 Conversion plants will ensure hygienic and sanitary condition for storage of SMP and Butter on plastic planks/pallets in clean and dry place away from sunlight. The place should be free from dust and pest/rodent environment. The deep freeze to be used for storage of Butter should essentially be fumigated prior to its use and the fumigation should be carried out in presence of the respective DCMPU officials.
- 5.8.4 Converted products SMP and WB will be lifted by District Unions / Tirupur DCMPU in 15 days time from the conversion date. The extension of this period can be modified with mutual consent.
- 5.8.5 Guidelines for Conversion Operation **as per Annexure III**

5.9 MODIFICATION AND WITHDRAWAL OF BIDS

- 5.9.1 No Bidder shall be allowed to withdraw the eAuctions after submitting the bids.

5.10 SECURITY DEPOSIT

The successful bidder would be required to sign an agreement (Annexure II) and furnish a Security Deposit of 5% of total trade value by means of Bank Draft from any Indian Nationalized Bank or Scheduled Bank drawn in favour of “The General Manager, Tirupur District Cooperative Milk Union Limited” payable at –Canara Bank, Tirupur during the time of executing the agreement.

No exemption will be given from payment of Security deposit under any circumstances and the same should be remitted by Demand Draft or RTGS or NEFT and any other form of remittance will not be accepted.

The security deposit will be refunded only after the expiry of 15 days from the date of satisfactory completion of the contract.

5.11 AGREEMENT

The successful Bidder has to execute an agreement on Rs.200/- non-judicial stamp paper incorporating the terms and conditions of the contract (Annexure II) within 5 days from the date of intimation of the acceptance of the Auction. In case of default of either of the conditions (i.e) remitting the security deposit or execution of the agreement within the time allowed, the EMD paid is likely to be forfeited by the NCDFI eMarket/DCMPU.

- 5.11.1 If the contractor fails to execute the contract satisfactorily at the eAuctioned rate, the security deposit will be forfeited by the DCMPU.
- 5.11.2 If the DCMPU incurs any loss / additional expenditure due to the negligence of the contractor in connection with the conversion of milk during the period of contract, the same shall be recovered together with all charges and expenses from the contractor.
- 5.11.3 The breakages or damages, if any, caused by the contractor to the property of the Union, the cost will be recovered from the contractor.
- 5.11.4 **RATES AND PRICE:** This is a fixed price contract. Price adjustment clause (to account for raise or fall in the money value / statutory taxes during the contract period) is not operable for this contract. However, any variation in the statutory levies and Taxes by State Government / Central Government shall be effected on the end price to the benefit of either the contractor or Federation as the case it may be.
- 5.11.5 No interest shall be paid on Earnest Money Deposit/Security Deposit.
- 5.11.6 The Agreement in Rs.200/- non-judicial stamp paper shall be signed and returned within 5 days of receipt of the work order for the conversion of milk along with RTGS/NEFT for Security Deposit.
- 5.11.7 The bidder should quote rates for conversion charges on the basis of per kg. manufacturing, packing, storage and handling of SMP and Butter.
Unions/ DCMPU shall supply milk from different Plants and will lift SMP & Butter after quality checks.
- 5.11.8 Rates should be quoted on the basis of strict adherence to specifications of SMP and Butter and recovery norms of Fat and

SNF as given in below, and should be quoted inclusive of all taxes and duties, if any.

CONVERSION LOSSES :- Fixed by TCMPF are given below

1)	SNF loss % during conversion of milk to SMP (On SNF to SNF basis)	Max 1.5%
2)	FAT loss % during conversion Milk to Butter (On FAT to FAT basis)	Max 1.2%

5.12 PAYMENT TERMS

5.12.1 Payment of conversion charges: The Converter will raise a bill towards the conversion charges on fortnightly (15 Days) basis.

The bill shall be raised on the DCMPU by enclosing /mentioning the details of milk received and products manufactured during the period. Payments shall be made promptly by the DCMPU but in no case later than Fifteen (15) days after submission of the invoice or claim by the Converter. Payment shall be made in Indian Rupees by cheque or through RTGS.

N.B: NO OTHER TERMS OF PAYMENT WILL BE ENTERTAINED.

PENALTY CLAUSE:

5.12.2 a) If the Bidder / Contractor fails in his due performance of the contract within the time fixed in the schedule accompanying the order or extension of time granted:-

b) If at any time during performance of the Contract, the Converter should encounter conditions impeding timely production of the conversion plants and performance of Services, the Converter shall promptly notify the Unions in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the Converter's notice, the DCMPU shall evaluate the situation and may, at its discretion, extend the Converter's time for performance with or without liquidated damages, in which case the extension shall be ratified by the parties by amendment of the Contract.

The Liquidated Damages be imposed for the delayed work / non acceptance of milk for conversion at 0.5% per month, if the contract value is more than Rs.100.00 Lakhs (Rupees One Crore).

5.12.3 If the Bidder fails to execute the work in full or part of the order as per the schedule, the DCMPU shall reserve the right to cancel the order besides forfeiture of Security Deposit.

5.12.4 Notwithstanding anything contained in the eAuction schedule, no obligation rests on the Union to accept the lowest bid and the DCMPU shall also have the right to accept or reject any or all the bids fully or partly without assigning any reasons.

- 5.12.5 For violation of any of the terms and conditions of the contract, the Federation reserves the right to terminate the contract, with or without notice as applicable.
- 5.12.6 On termination of contract, the Security Deposit is liable to be forfeited and any of the resultant loss beyond Security Deposit will be recovered from the contractor by legal means apart from forfeiture of any amount due to the contractor.
- 5.12.7 (a) If the Bidder defaulted in any of the previous contracts to execute agreement or to pay Security Deposit or to supply ordered quantity either in part or full will not be eligible from participating in this Auction.
- (b) If the successful Bidder either in the DCMPU defaulted to execute agreement or to pay Security Deposit or to supply ordered quantity either in part or full shall be debarred from participating in the subsequent participation for a period of 3 years.

5.13 FORCE MAJEURE:

Failure or delay in the part of Bidder for supply due to force majeure causes enumerated hereunder shall be considered, provided the supplier produces documentary evidence.

- a. Any cause which is beyond the reasonable control of the Bidder.
- b. Natural phenomena, such as floods, drought, earthquakes and epidemics.
- c. Act of any Govt. Authority, domestic or foreign, such as wars declared or undeclared quarantines, embargoes licensing control on production or distribution restrictions.
- d. Accident and disruptions such as fire, explosion, increase in power cut with respect to date of Auction opening etc.,
- e. Strikes, slow down and lockouts.

The cause of force majeure condition will be taken into consideration only if the supplier notifies Unions within 7 days from the occurrence of such eventualities. The purchaser shall verify the facts and grant such extension as the facts justify. For extension due to force majeure conditions, the supplier shall submit his representation with documentary evidence for scrutiny by the purchaser and decision of the purchaser shall be binding on the time.

5.14 DISPUTES AND ARBITRATION

In case of disputes arising out of this Auction, District Registrar of Cooperatives will be appointed as an arbitrator by The General

Manager of DCMPU. The arbitrator's decision shall be final, conclusive and binding on both the parties.

5.15 LEGAL JURISDICTION

In case if either party to the Auction is aggrieved by the award of the arbitrator so appointed as per clause 5.14. Or otherwise, they can appeal to Court. The courts situated in Tirupur alone shall have jurisdiction to entertain such disputes.

5.16 QUALITY CHECKS/PARAMETERS

- 5.16.1 The successful Bidder shall have to carry out job in strict hygienic & sanitary by following GMP & environment conforming to the basic standards laid down by Food Safety & Standards Act 2006 ISO 22000:2005 and other rules and regulations prevalent. Violation of any clause of different Acts shall be the sole responsibility of the successful Bidder.
- 5.16.2 SMP shall have to be manufactured BIS marked & Butter as per specifications and recovery norms of Fat and SNF as given in Annexure I of the Auction document.
- 5.16.3 Butter manufactured shall be stored in such a way that it should attain a temperature of -18° C within 10 days from the date of manufacture. At the time of dispatch the body temperature of Butter should be -18° C.
- 5.16.4 The successful Bidder shall ensure the availability of all manufacturing and testing facilities at the factory premises and maintain them properly including their calibration and stamping at regular interval to ensure precision testing.
- 5.16.5 Milk is to be tested using a Zeal Type Lactometer at 29°C (84F) and formulae to be followed for SNF% calculation shall as below:
- (i) In whole milk $SNF\% = CLR/4 + Fat\% \times 0.2 + 0.36$
- (ii) In skim milk $SNF\% = CLR/4 + Fat\% \times 0.2 + 0.36$
- The analysis can be done using FTIR Technology calibrated equipments also.
- 5.16.6 SMP shall be packed in quantities of 25 kg primarily in bags of food grade polyethylene (see IS 10171) of minimum thickness 0.05 mm. The bags should be properly closed by tying with a string or a rubber band and shall be subsequently encased in secondary outer packing in any of the following:
- a) Sacks conforming to IS 11824 and b) Multi walled Kraft paper, such as crepe Kraft paper bags of not less than 80 GSM grade lined with Hessian cloth having a mass of 270 GSM and having two inner layers of plain Kraft paper of not less than 80 GSM.

Incase packing material is provided by Milk Union, no losses in packing material will be accepted.

b) SMP manufactured should be and the plant should have the facility to produce skimmed milk powder.

5.16.7 Butter be packed in 20 Kg with food grade unprinted LDPE liner in corrugated boxes made of 5 ply, each ply should be of 150 GSM with the box bursting strength of minimum 12 kg./sq.cm. If the Government put bans on LDPE materials the alternate packing materials should be used and no additional claim for the cost will not be entitled.

5.16.8 It will be the responsibility of the approved conversion plant to ensure unloading of milk immediately on receipt and testing of milk. In case of inordinate delay in unloading of tanker, District Union may impose penalty in lieu of disruption in working and direct or indirect losses.

5.16.9 Conversion plants will ensure the maximum limit of moisture% in SMP is as per the given specification. Increase in moisture%, is not allowed as it will lead to quality problem on storage.

5.16.10 The conversion plant will ensure to supply Butter fat as per the given recovery norms, in case of short receipt of Butter fat & Ghee, District Union will impose prorata recovery for the less quantity fat received, which will be calculated on the basis of market fat rate as decided by unions.

5.16.11 It will be the responsibility of the approved conversion plant to ensure unloading of milk immediately on receipt and testing of milk. In case of inordinate delay in unloading of tanker, DCMPU may impose penalty in lieu of disruption in working and direct or indirect losses. Conversion plant should ensure appropriate coding of batch numbers of SMP and Butter and should keep record of corresponding raw material, i.e. name of source, quantity and quality report so that back tracing of sources of ingredients i.e. raw material used in particular batch should be available at the plant.

5.16.12 The authorized representative of DCMPU shall inspect the premises in regard to sanitation and hygienic practices and conditions as well as the records regarding the quality of raw milk, quality and manufacture of Butter and SMP as well as packaging materials and packaging practices and or as may be directed to inspect by the company.

5.17 **INSPECTIONS**

5.17.1 All the SMP/Butter produced is subject to inspection before acceptance. If they are rejected on quality grounds, then the party

will have to manufacture SMP/Butter from own resources and supply equivalent quantity of SMP/Butter as per standards or the landed cost of milk supplied will be recoverable from the successful Bidder. Milk Union's inspection report in this regard shall be treated as FINAL. Any consignment sold from the batch found rejected by the purchaser due to inferior quality / packing the manufacturing plant should take responsible for replacing the product and the cost incurred for handling will be recovered from the work awarded Bidder.

6. Pre-Qualification Criteria – Technical Bid

The pre-qualification Technical bid will contain the under mentioned aspects pertaining to the prospective suppliers about their suitability, capacity, financial status, antecedents, past performance etc. The conditions are:-

For General Manager

7. Evaluation and Comparison of the eAuction Offers

- 7.1 The bid price should be inclusive of conversion charges, storage charges, Packaging material, other incidental charges and exclusive of GST.
- 7.2 The quoted prices should be inclusive of storage charges for a minimum free storage period of 30 days for SMP and 15 Days for Butter.
- 7.3 The evaluation for successful bidders shall be based on price quoted, capacity to process and distance of the firm from our dairies.
- 7.4 **The distance of the firm from our dairies will also be considered as one of main criteria for evaluation of the lowest bid.**
- 7.5 If the circumstances justify and the management feel appropriate, DCMPU will have right to allocate quantities to multiple bidders.

Annexure I

CONVERSION LOSSES :- Fixed by TCMPF as below

1)	SNF loss % during conversion of milk to SMP (On SNF to SNF basis)	Max 1.5%
2)	FAT loss % during conversion Milk to Butter (On FAT to FAT basis)	Max 1.2%

Annexure II

GENERAL CONDITIONS OF CONTRACT

1.0 Definitions:

- 1.1 In this Contract, the following terms shall be interpreted as indicated:
- a) "The Contract" means the agreement entered into between the Unions and the Converter, as recorded in the Contract Form signed by the parties, including all the attachments and appendices thereto and all documents incorporated by reference therein;
 - b) "The Contract Rate" means the rate payable to the Converter under the Contract for full and proper performance of its contractual obligations;
 - c) "The Conversion Plants" means all the equipment, machinery, and/or other Plants, which the Converter is required to provide to the Unions under the Contract;
 - d) "Services" means services ancillary to provide the conversion facility, such as conversion of milk in to SMP/BUTTER and other obligations of the Converter covered under the Contract;
 - e) "GCC" mean the General Conditions of Contract contained in this section.
 - f) "SCC" mean the Special Conditions of Contract
 - g) "The Unions" means the organization utilizing the conversion facilities, as name in SCC.
 - i) "The Converter" means the individual or firm providing the conversion facilities and Services under this Contract.
 - j) "The Government" means the Government of Tamil Nadu State.
 - k) "The Project Site", where applicable, means the place or places named in SCC.

1.2 **"Day" means calendar day.**

2.0 Application:

- 2.1 These General Conditions shall apply to the extent that provisions in other parts of the Contract do not supersede them.

3.0 Standards:

- 3.1 The conversion Plants provided under this Contract shall conform to the standards mentioned in the Technical Specifications, and, when no applicable standard is mentioned, to the authoritative standard appropriate to the 'conversion plants' country of origin and such standards shall be the latest issued by the concerned institution.

4.0 Uses of Contract Documents and Information; Inspection and Audit by the Government:

- 4.1 The Converter shall not, without the Unions prior written consent, disclose the Contract, or any provision thereof, or any specification, plan, drawing, pattern, sample or information furnished by or on behalf of the Unions in connection therewith, to any person other than a person employed by the Converter in performance of the Contract. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for purposes of such performance.
- 4.2 The Converter shall not, without the Unions prior written consent, make use of any document or information except for purposes of performing the Contract.
- 4.3 Any document, other than the Contract itself shall remain the property of the Unions and shall be returned (in all copies) to the Unions on completion of the Converter's performance under the Contract if so required by the Unions.
- 4.4 The Converter shall permit the Government to inspect the Converter's accounts and records relating to the performance of the Converter and to have them audited by auditors appointed by the Government, if so required by the Government.

5.0 Performance Security:

- 5.1 Immediately on receipt of the notification of contract award, the Converter shall furnish Performance Security in the form of Demand Draft or RTGS or NEFT to the DCMPU for an amount as specified as detailed below) for each Conversion Plants valid up to the period of

- contract including extension period after the date of completion of performance obligations including extension period.
- 5.2 The proceeds of the performance security shall be payable to the Tirupur DCMPU as compensation for any loss resulting from the Converter's failure to complete its obligations under the Contract.
- 5.3 The Performance Security shall be denominated in Indian Rupees and shall be in one of the following forms:
- NEFT or RTGS
 - b) A Crossed Demand Draft or Pay order drawn in favour of the General Manager, Tirupur DCMPU Ltd, payable at Tirupur.
- 5.4 The Performance Security will be discharged by the DCMPU and returned to the Converter 15 days from the date of completion of the Converter's performance obligations, including any Extension period under the Contract.

6.0 Inspections and Tests:

- 6.1 The Unions or its representative shall have the right to inspect and/or to test the Conversion Plants to confirm their conformity to the Contract specifications at no extra cost to the Unions. SCC and the Technical Specifications shall specify what inspections and tests the Unions requires and where they are to be conducted. The Unions shall notify the Converter in writing in a timely manner of identification of any representatives retained for these purposes.
- 6.2 The inspections and tests may be conducted on the premises of the Converter or its sub Converter(s), at point of Production and/or at the conversion Plants. If conducted on the premises of the Converter or its sub Converter(s), all reasonable facilities and assistance, including access to drawings and production data shall be furnished to the inspectors at no charge to the Unions.
- 6.3 Should any inspected conversion Plants fail to conform to the Requirements, the Unions may reject the conversion Plants and/or

make alterations necessary to meet the requirements free of cost to the Unions.

- 6.4 The Unions have the right to inspect where/when ever necessary, reject the conversion facility & shall in no way be limited or waived by reason of the Conversion plants having previously been inspected and passed by the Unions or its representative prior to the issue of conversion order.

7.0 Packing:

The converted products shall be packed in Packing material with Union art work with "Aavin" brand only.

8.0 Insurance:

- 8.1 The Conversion facility provided under the contract shall be fully insured in Indian Rupees against loss or damage incidental to manufacture or acquisition, shifting, storage and delivery. In case of insolvency, property of union should be unconditionally stored.

9.0 Payment:

- 9.1 Payment of conversion charges: The Converter will raise a bill towards the conversion charges on fortnightly (15 Days) basis. The bill shall be raised on the DCMPU by enclosing /mentioning the details of milk received and products manufactured during the period.
- 9.2 Payments shall be made promptly by the respective Unions but in no case later than Fifteen (15) days after submission of the invoice or claim by the Converter.
- 9.3 Payment shall be made in Indian Rupees by cheque / RTGS.

10.0 Rates:

- 10.1 Rates payable to the Converter as stated in the contract shall be firm during the performance of the contract.
- 10.2 The contract rate means the finalized rate, payable to the Converter / Converter under the contract for eAuction and also for the full & proper performance of the contractual obligations.
- 10.3 The contract rate shall remain constant for the period of contract.

13.0 Delays in the Converter's Performance:

- 13.1 Performance of the Services shall be made by the Converter in accordance with the time schedule specified by the Unions in the Schedule of Requirements.
- 13.2 If at any time during performance of the Contract, the Converter or its sub-contract(s) should encounter conditions impeding timely production of the conversion plants and performance of Services, the Converter shall promptly notify the Unions in writing of the fact of the delay, it's likely duration and its cause(s). As soon as practicable after receipt of the Converter's notice, the Unions shall evaluate the situation and may, at its discretion, extend the Converter's time for performance with or without liquidated damages, in which case the extension shall be ratified by the parties by amendment of the Contract.
- 13.3 A delay by the Converter in the performance of its obligations shall render the Converter liable to the imposition of liquidated damages unless an extension of time is agreed upon pursuant to other conditions 1.2 without the application of liquidated damages.

14.0 Termination for Default:

- 14.1 The Unions may, without prejudice to any other remedy for breach of contract, by written notice of default sent to the Converter, terminate the Contract in whole or part:
- a) If the Converter fails to provide any or all of the Services within the period(s) specified in the Contract, or within any extension thereof granted by the Unions or
 - b) If the Converter fails to perform any other obligation(s) under the Contract.
 - c) If the Converter, in the judgment of the Unions has engaged in corrupt or fraudulent practices in competing for an in executing the Contract.

10.4 On any other account increase/decrease in rate will not be allowed during the contract period.

11.0 Contract Amendments:

11.1 No variation in or modification of the terms of the Contract shall be made except by written amendment signed by the parties.

12.0 Assignment:

The Converter shall not assign, in whole or in part, its obligations to perform under the Contract, except with the Unions prior written consent.

For the purpose of this Clause:

“Corrupt practice” means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution.

“Fraudulent practice” means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Borrower, and includes collusive practice among Bidders (prior to or after bid submission) designed to establish bid rates at artificial non-competitive levels and to deprive the Borrower of the benefits of free and open competition.

- 14.2 In the event the Unions terminates the Contract in whole or in part, the Unions may procure, upon such terms and in such manner as it deems appropriate, conversion facilities or Services similar to those undelivered, and the Converter shall be liable to the Unions for any excess costs for such similar or Services. However, the Converter shall continue the performance of the Contract to the extent not terminated.

15.0 Force Majeure:

- 15.1 Notwithstanding the provisions of contract the Converter shall not be liable for forfeiture of its performance security, liquidated damages or termination for default, if and to the extent that, its delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.
- 15.2 For purposes of this Clause, “Force Majeure” means an event beyond the control of the Converter and not involving the Converter’s fault or negligence and not foreseeable. Such events may included, but are not limited to, acts of the Unions either in its sovereign or contractual capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes.
- 15.3 If a Force Majeure situation arises, the Converter shall promptly notify the Unions in writing of such conditions and the cause thereof. Unless otherwise directed by the Unions in writing, the Converter

shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.

16.0 Termination for Insolvency:

16.1 The Unions may at any time terminate the Contract by giving written notice to the Converter, if the Converter becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the Converter, provided that such termination will not prejudice or affect any right of action or remedy, which has accrued or will accrue thereafter to the Unions.

17.0 Termination for Convenience:

17.1 The Unions, by written notice sent to the Converter, may terminate the Contract, in whole or in part, at any time for its convenience. The notice of termination shall specify that termination is for the Unions convenience, the extent to which performance of the Converter under the Contract is terminated, and the date upon which such termination becomes effective.

18.0 Settlement of Disputes:

18.1 The Unions and the Converter shall make every effort to resolve amicably by direct informal negotiation any disagreement or dispute arising between them under or in connection with the Contract.

18.2 If, after thirty (30) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the Unions or the Converter may give notice to the other part of its intention to commence arbitration, as hereinafter provided, as to the matter in dispute, and no arbitration in respect of this matter may be commenced unless such notice is given.

18.3 Any dispute or difference in respect of which a notice of intention to commence arbitration has been given in accordance with this Clause shall be finally settled by arbitration. Arbitration may be

commenced prior to or after provision of the conversion plants under the Contract.

18.4 Arbitration proceedings shall be conducted in accordance with the rules of procedure

Notwithstanding any reference to arbitration herein,

(a) The parties shall continue to perform their respective obligations under the Contract unless they otherwise agree; and

(b) The Unions shall pay the Converter any money due for the Converter.

19.0 Limitation of Liability:

19.1 Except in cases of criminal negligence or willful misconduct, and in the case of infringement pursuant to Clause 5,

(a) The Converter shall not be liable to the Unions, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the Converter to pay liquidated damages to the Unions; and

(b) The aggregate liability of the Converter to the Unions, whether under the Contract, in tort or otherwise, shall not exceed the total Contract Rate, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment.

21.0 Applicable Law

The Contract shall be interpreted in accordance with the laws of the Union of India.

21.0 Notices

21.1 Any notice given by one party to the other pursuant to this Contract shall be sent to other party in writing or by cable, telex or facsimile and confirmed in writing to the other Party's address specified in SCC.

22.2 A notice shall be effective when delivered or on the notice's effective date, whichever is later.

23.0 Taxes and Duties:

23.1 Converters shall be entirely responsible for all taxes, duties, license fees, Permits, insurance etc., during the period of contract

24.0 Converters Integrity:

The Converter is responsible for and obliged to conduct all contracted activities in accordance with the contract using state-of-the-art methods and economic principles and exercising all means available to achieve the performance specified in the contract.

25.0 Converter's Obligations:

The Converter is obliged to work closely with the Unions staff, act within its own authority and abide by directives issued by the Unions and implementation activities.

The Converter will be abide by the job safety measures prevalent in India and will free the Unions from all demands or responsibilities arising from accidents or loss of life the cause of which is the Converter's negligence. The Converter will pay all indemnities arising from such incidents and will not hold the Unions responsible or obligated.

The Converter is responsible for managing the activities of its personnel or sub-contracted personnel and will hold itself responsible for any misdemeanors.

The Converter will treat as confidential all data and information about the Unions, obtained in the execution of his responsibilities, in strict confidence and will not reveal such information to any other party without the prior written approval of the Unions.

26.0 Patent Rights:

In the event of any claim asserted by a third party of infringement of copyright, patent, trademark or industrial design rights arising from the use of the conversion plants or any part thereof in the Unions country, the Converter shall act expeditiously to extinguish such claim. If the Converter fails to comply and the Unions is required to pay compensation to a third party resulting from such infringement, the Converter shall be responsible for the compensation including all expenses, court costs and lawyer fees. The Unions will give notice to the Converter of such claim, if it is made, without delay.

OTHER CONDITIONS OF CONTRACT TO MEET SPECIFIC REQUIREMENT OF DCMPU

1.0. VALIDITY OF CONTRACT

- 1.1 This contract shall be valid for a period of **3 (Three) Months** from the date of commencement of the contract. The rate quoted is applicable for **Three Months** & any changes in the rate within the contract period is not allowed.
- 1.2 The DCMPU reserves the right to extend the contract period which shall be for a further period up to **30 days** from the date of expiry.

2.0 SPECIFIC REQUIREMENTS OF DCMPU:

- 2.1 **The Converter shall convert the RCM/Whole Milk/Skimmed milk of the union into Butter and Skimmed Milk Powder-(SMP/Butter).**
- 2.2 **HANDLING OF MILK:** The converter shall receive the Skim /Whole milk from the Milk Union as per Milk Movement plan which is based on availability of surplus Milk and arrange to unload of Skim/Whole milk & store separately.
- 2.3 **CONVERSION LOSSES :-** Fixed by TCMPF as below

1)	SNF loss % during conversion of milk to SMP (On SNF to SNF basis)	Max 1.5%
----	--	----------

2)	FAT loss % during conversion Milk to Butter (On FAT to FAT basis)	Max 1.2%
----	--	----------

B) Minimum Expected YIELD CALCULATION: Yield of the product to be calculated in the following way

For eg:

1.Butter Yield :

10, 000 kgs of Milk with 4%Fat contains 400 kgs of fat ... (1)
 Fat handling loss at 1.2% 4.8 kg fat. (2)
 Difference of (1) & (2) 395.2 kg fat ----- (3)
 Yield of Butter with 82.0% fat will be $(395.2/82.0\%)= 481.95$ kgs

2. SMP Yield :

10, 000 kgs of Milk with 8.5%SNF contains 850 kg SNF (1)
 SNF handling loss at 1.5% 25.5 kg SNF..... (2)
 Difference of (1) & (2) 837.25 kg SNF ---- (3)
 Yield of SMP with 96.8% SNF will be - $(837.25/96.8\%)= 864.92$ kgs

- 2.4 The Quality & Quantity of Milk as recorded by the Milk sending Union will be final for the purpose of accounting.
- 2.5 In case of any variation in quality & quantity the issue shall be resolved with mutual consent by both sending union & Conversion plant (Receiving dairy)
- 2.6 The Converter has to acknowledge the time of arrival of Milk tanker from the supplying union as soon as it reaches their plant.
- 2.7 Formula to be used for analysis of milk is $SNF\% = (CLR/4 + 0.20X(FAT\%) + 0.36)$, tested at 29°C, or analysis based on gravimetric method, and the instruments with FTIR technology for processed milk .
- 2.8 Use of Lactometers other than "Zeal Type Lactometer" (Star/Equivalent Lactometer) is not accepted for analysis of TCMPF Milk .
- 2.9 The converter shall inform the Unions on regular basis, (every 10 days) on the milk receipt & the quality of product manufactured to plan lifting of stocks.

- 2.10 The converter shall handle/convert Union milk separately and store separately. Shall not use Union milk or milk product for their own use/other purpose.
- 2.11 The converting plant shall have proper Dry godown facility for storage of SMP & proper Deep freeze facility for storage of Butter, such that the temperature of the Butter shall be Not more than -15^oc, at the time of lifting.
- 2.12 The converter shall handle/convert Union milk separately and store separately. Shall not use Union milk or milk product for their own use/other purpose.
- 2.13 The converter shall ensure that the quality of SMP / BUTTER conforms to Union standard as in Annexure-IV
- 2.14 The Converter shall hand over the converted stocks to Unions on receipt of conversion charges until such time it is the responsibility of the Converter to safeguard the products by adopting good storage practices. Product loss, if any, due to the unforeseen circumstances like fire, theft etc. shall be the responsibility of the Converter. The Converter shall arrange for the storage insurance (with 100% coverage) for the product manufactured/stored.
- 2.15 In case the manufactured product do not conform to the specification laid down, the Converter shall make the replacement of the product with good product at his own cost. Any batch of the converted product found rejected by the purchaser of the product due to poor quality the financial losses should be borne by the converter.
- 2.16 Converter shall undertake the conversion by following "Good Manufacturing Practices "and also maintain proper sanitary and hygienic conditions in the conversion, packing and storage of the product.
- 2.17 SMP will be packed in poly liner and finally packed in 25 kgs Bags. Each bag of SMP should carry the labeling & declarations clearly to identify the producing factory, the lot/batch no., manufacturing date, FSSAI no. etc as specified under various Acts/rules. The packing

material used for the packing of SMP/Butter shall conform to TCMFP specifications as in **Annexure-V**

- 2.18 The converted products shall be packed in packing material with Union art work with "Union" brand only.
- 2.19 The packing material of "Union" brand shall not be used for packing of your products, and if any such incidents noticed by Union action will be initiated as per the law of brand misuse.
- 2.20 The Converter shall ensure that product so manufactured shall have a shelf life of one year from the date of manufacturing.
- 2.21 The converter (Conversion Plant) shall follow the Union guidelines for conversion operations as in Annexure-III
- 2.22 **The converting plant shall have ISO 22000 Certification and food safety management system/ HACCP**
- 2.23 Payment of conversion charges: The Converter will raise a bill towards the conversion charges on fortnightly (15 days) basis. The bill shall be raised on the Milk Sending Union by enclosing /mentioning the details of milk received and products manufactured during the period.
- 3.0 Award of the contract shall be decided based on the following parameters:
 - a) Conversion Charges.
 - b) Transportation charges.
 - c) Meeting of all the requirements as specified in Auction Document.

4.0 TERMINATION CLAUSE:

- a) Either of the parties shall terminate the contract mutually based on the availability of milk.
- b) Union Shall terminates the contract if there are violations of the conditions agreed upon in the contract.

Annexure III

GUIDELINES FOR CONVERSION OPERATION:-

1. Guidelines for the Conversion Operation.

1.1 Guidelines for the Conversion plants

1. Quantity and Quality of Milk : The quality and the quantity of raw milk shall be checked as per the DCMPU Quality norms and guidelines prescribed hereunder by the party immediately after arrival of the tankers at the premises. The raw milk must be free from any adulterants as well as preservatives.
2. Quality Parameters: The Conversion party shall maintain all the records of testing of raw milk, online (in process) analysis and final products and these shall be made accessible to the Union as and when required. Milk not meeting the prescribed standards shall be out rightly rejected.
4. The Conversion party shall ensure the availability of all the manufacturing and testing facilities at the factory premises and maintain them properly including its calibration at regular interval, etc to ensure precision testing.
5. The packing materials shall be procured by the conversion plants as per the specifications provided by the DCMPU with Union artwork. Upon receiving of packaging materials, the same should be subjected to quality check at laboratory for all the prescribed quality parameters such as thickness, bursting strength, print etc and results shall be recorded in the concerned packaging test register.
6. Conversion plants shall follow the set quality plan as per GMP, GHP and GLP to adhere to stringent quality practices to meet the requirements of TCMPF.
7. Conversion plants shall bear the responsibility of ensuring the net quantity of SMP & Butter bag and carton respectively.
8. Conversion plant should have the facility to manufacture Powder from the milk sent for conversion

9. Conversion plants shall dispatch the commodities along with the Test Report for the batches being dispatched.
10. Conversion plants shall follow the quality plan and guidelines of Union, coding system of Batches, Traceability system and weighing system in manufacturing SMP & Butter
11. The products manufactured at the premises of conversion plants shall conform to Union specifications. Conversion plants shall check online quality of the products being manufactured and accordingly segregate the products not meeting the quality parameters.
12. Every batch of products to be dispatched shall get clearance from the officers of Union or converting unions deputed there before its dispatch.
13. Surprise visits shall be made by Union officers. If the products do not conform to the quality standards of TCMPF during the testing by the Union officers at the premises of conversion plants as well as finally at the unions, the non-conforming products shall be sent back to the conversion plants and the conversion plants shall bear all the expenses incurred.
14. White Butter shall be packed in 20 kg block in liners with corrugated boxes, SMP in 25 kg liner with kraft paper bags bearing the approved artworks of Union.
15. Union should depute one quality control person in the conversion plant at the time of conversion to check the quality parameters and quantity produced from the milk sent by the respective union.

General Good Hygiene Practice and Good Manufacturing Practices :

1. Self closing door shall be provided at all products manufacturing and packing rooms.
2. Air curtain at the entrance shall be provided at all products manufacturing and packing rooms.
3. All exterior openings shall be provided with appropriate screens and curtains to prevent entry of insects, birds or animals.

4. Pest-o-flash shall be provided at appropriate places in all processing and packing room.
5. Pest control system shall be in placed in product storage room.
6. Good Hygiene condition of workers shall be maintained and mouth mask, head gears, hand gloves shall be provided.
7. Coding of Batch No. Conversion plant shall follow the coding system (ex A 01, where A is the Month January, 01 is the date or as directed by Union from time to time).
8. Date of Manufacture (DOM), Batch No, Bag Bo shall be legibly written with marker/Printed on the bag.
9. Products shall be stored on pallets (preferably on plastic).

Quality Plan for SMP Manufacturing

Conversion Plants shall follow Quality plan of union for manufacturing SMP to meet the requirements of union. The quality plan is compiled based on the SOPs and GMP for manufacture of SMP to ensure the quality and safety of the product.

1. Wet cleaning schedule (at least once in a fortnight) depending upon the conditions of drying chamber.
2. CIP schedule for Milk tanks etc.
3. Batches that do not meet the specifications shall not be dispatched.

Quality plan for Butter Manufacturing.

Conversion plants shall follow the Quality plan of Union for manufacturing butter to meet the requirements of Union. The quality plan is compiled based on SOPs and GMP for manufacture of butter to ensure the quality and safety of the product.

1. Formulation of CIP schedule of churn, milk/cream tanks etc
2. CIP after every two batches or whenever there is gap from one batch to another batch. Utensils, trolleys etc to be cleaned along with CIP
3. Butter liner should be dipped in 50 ppm chlorine/iodophore/suitable effective disinfectant solution before use.

4. Weekly fumigation shall be carried out for butter packing and production areas. Air count shall be monitored weekly and the count shall be <20 cfu.
5. Stainless steel shovels to be used for putting butter into packing machine/cartons
6. Batches that does not meet the specifications shall not be dispatched.
7. After packing, butter cartons shall be shifted to Deep Freeze immediately. The temperature of Deep Freeze should be -18°C or below
8. Deep freeze shall be fumigated periodically.
9. At the time of dispatch, butter temperature shall be -15°C to -18°C or below.

Specifications of incoming Whole milk and Separated Skim milk.

Whole milk / Skim Milk quality to be supplied as under:

- 1.Raw chilled with a minimum Fat % of 3.8 and 7.8 % SNF
- 2.Skim Milk will be Pasteurized / Normal Flavor
- 3.SNF in Skim milk will be above 8.1%
- 4.Acidity : 0.145 Max
- 5.Alcohol : 65% -Ve
- 6.HS : 0.5-Ve
- 7.Free from adulterants.
- 8.Temperature- Between 5-7°C
- 9.Sodium Content – 500 ppm Maximum

Annexure IV

Specifications of Skimmed Milk Powder and Butter

The method of sampling and testing for butter shall be carried out as per the IS 3507 (1966).

**PRODUCT SPECIFICATION
 TCMPF SPECIFICATION FOR SKIMMED MILK POWDER**

Sl. No.	PARAMETERS	TCMPF SPECIFICATION
1	Description	Light yellow/white in colour, free from lumps and free from extraneous matter, added colour and free from off flavor
2	Flavour	Pleasant and clean flavour, free from off flavour.
3	Milk Fat, percent by mass	Max. 1.5
4	Insolubility Index, ml	Max. 0.5
5	Moisture, percent by mass	Max. 3.5
6	Milk Protein in Milk Solids not fat, percent by mass	Min. 34.0
7	Total ash on dry matter basis %	Max. 8.2
8	Titrateable Acidity, ml of 0.1N NaOH/ 10 g of solids not fat	12 - 18 ml
9	Scorched Particles	Max. 15mg , equivalent to Disc B
10	Bulk Density	0.50 - 0.60
11	Preservatives, Adulterants & Neutralizers	Negative
12	Wettability	Not more than 1 minute
13	Sodium Content	550 mg/ 100 g, Max
14	Total Plate Count, per g	Max.30,000
15	Coliform Count per g	Max.10
16	E.Coli, per g	Absent
17	Salmonella, per 25 g	Absent
18	Staph aureus, per g (coagulase positive)	Max.10
19	Listeria Monocytogenes/g	Absent
20	Anaerobic Spore count/g (Clostridium perfringenes)	Max. 10
21	Aerobic Spore count/g (Bacillus cereus)	Max. 100

Kraft Bag for Skimmed Milk Powder
(Specifications as per IS:11824-1986)
