

ACTIVITY REPORT

JULY 2021

Sonar Quila (Golden Fort), Jaisalmer, Rajasthan

About us

The National Cooperative Dairy Federation of India Limited (NCDFI), established in 1970, is an apex body of dairy/oil cooperatives. Its members include federal dairy cooperatives of states / union territories and the National Dairy Development Board (NDDB) as its institutional member.

The primary objective of the NCDFI is to facilitate the working of dairy cooperatives through coordination, networking and advocacy.

Major activities of the NCDFI are: coordination of milk and milk product supplies to defence services; providing online marketplace for dairy industry; and working for genetic improvement of cattle.

Total business transacted by the NCDFI during the financial year 2020-21 was ₹ 4,661 crores.

The adoption of technology and its application to ensure better returns to dairy cooperatives and in turn to milk producers has been the primary focus of the NCDFI. One such initiative is NCDFI eMarket which was launched on June 10, 2015.

The commodities being traded on the NCDFI eMarket platform are Dairy Products, Cattle Feed Ingredients, Edible Oils, Fodder Seeds, Packaging Materials, Sugar, Chemicals, Scrap, etc., apart from various service contracts. The platform ensures transparent, fair, economic and fast dealings for all the members.

Biofuels are used as the main source of heating fuel in dairy industries. Use of biofuels ensures the dairies to be eco-friendly and have lower carbon emissions. Biofuel production has significantly increased in the past couple of decades with the aim of protecting the environment and ensuring energy independence.

For procurement of various biofuels through e-auctions with customized purchase terms, cooperatives can approach.

Standard Specification

Characteristics	Rice Husk	Briquettes
Calorific value	3000 Kcal/kg (minimum permissible)	minimum 3600 Cal/Kg
Moisture	12 % (Maximum permissible)	Less than or equal to 10%
Dust/Sand	2 % (Maximum permissible)	Less than or equal to 2%

Key Benefits of Biofuels in Plants

Green energy | Cost Effective | Lower level of pollution

Sustainability | Highly Combustible
