INFORMATION

BROCHURE

NCDFI

Estd. 1970

Major Activities

Institutional Sales

Coordinating milk and milk product supplies to institutions i.e. Defence forces, IRCTC, ITBP, Assam Rifles, etc.

Online marketplace for bulk trade of Dairy/Packing/Agri Commodities, etc.

Developmental Activities

Organising capacity building programmes i.e. Trainings, Conferences, Seminars, etc.

IT Services

NCDFI offers customised IT solutions to support digital transformation, process automation, and efficient data-driven operations across the dairy value chain.

National Cooperative Dairy Federation of India Ltd. (NCDFI), established in 1970, is an apex body of dairy cooperatives. and one of the 21 National Cooperative Societies notified by the Ministry of Cooperation, GoI. Its members include federal dairy cooperatives of states/union territories and National Dairy Development Board (NDDB) as its Institutional Member.

The primary objective of NCDFI is to facilitate the working of dairy cooperatives through coordination, networking and advocacy.

Total business transacted by NCDFI during the financial year 2025-26 was ₹ 6,249 crores.

State/ UTs Apex Cooperatives (29)

District Milk Unions (241)

Village Milk Societies (2.30 lakh)

Dairy Farmer Members (170 lakh)

Dr. Meenesh Shah

Chairman, NCDFI & NDDB

Dear Esteemed Stakeholders,

It gives me immense pleasure to present this Information Brochure on NCDFI eMarket, a transparent, efficient and trusted digital marketplace serving the evolving needs of India's dairy cooperative sector.

Launched in June 2015 with the patronage of NDDB, NCDFI eMarket has emerged as a one-stop platform for sale, procurement and service-related requirements of dairy institutions. Over the years, it has enabled real-time, competitive and audit-friendly transactions, strengthening price discovery, market access, operational efficiency and trust among users.

The platform supports multiple auction formats across a wide range of products and services. With a growing member base of over 10,200 registered users across the country, its dedicated mobile app, email alerts, webpages, newsletters, monthly reports and field-level outreach have further enhanced auction visibility, participation and compliance.

During FY 2025-26, NCDFI eMarket concluded transactions worth ₹4,545 crore through more than 16,700 real-time auctions, covering over 500 products and services. This reflects the growing confidence of members and stakeholders in the platform.

To meet emerging institutional requirements, NCDFI eMarket has introduced the Request for Quotation (RFQ) module, primarily for procurement of capital expenditure items, equipment, plant and machinery, infrastructure requirements and service contracts involving technical evaluation. The facility supports wider vendor participation, technical and commercial assessment, informed decision-making and transparent procurement.

NCDFI is continuously working on key IT initiatives, including improvements in registration, earnest money deposit management, user interface, process automation, reporting and system controls, to make the platform more responsive, secure and user-friendly.

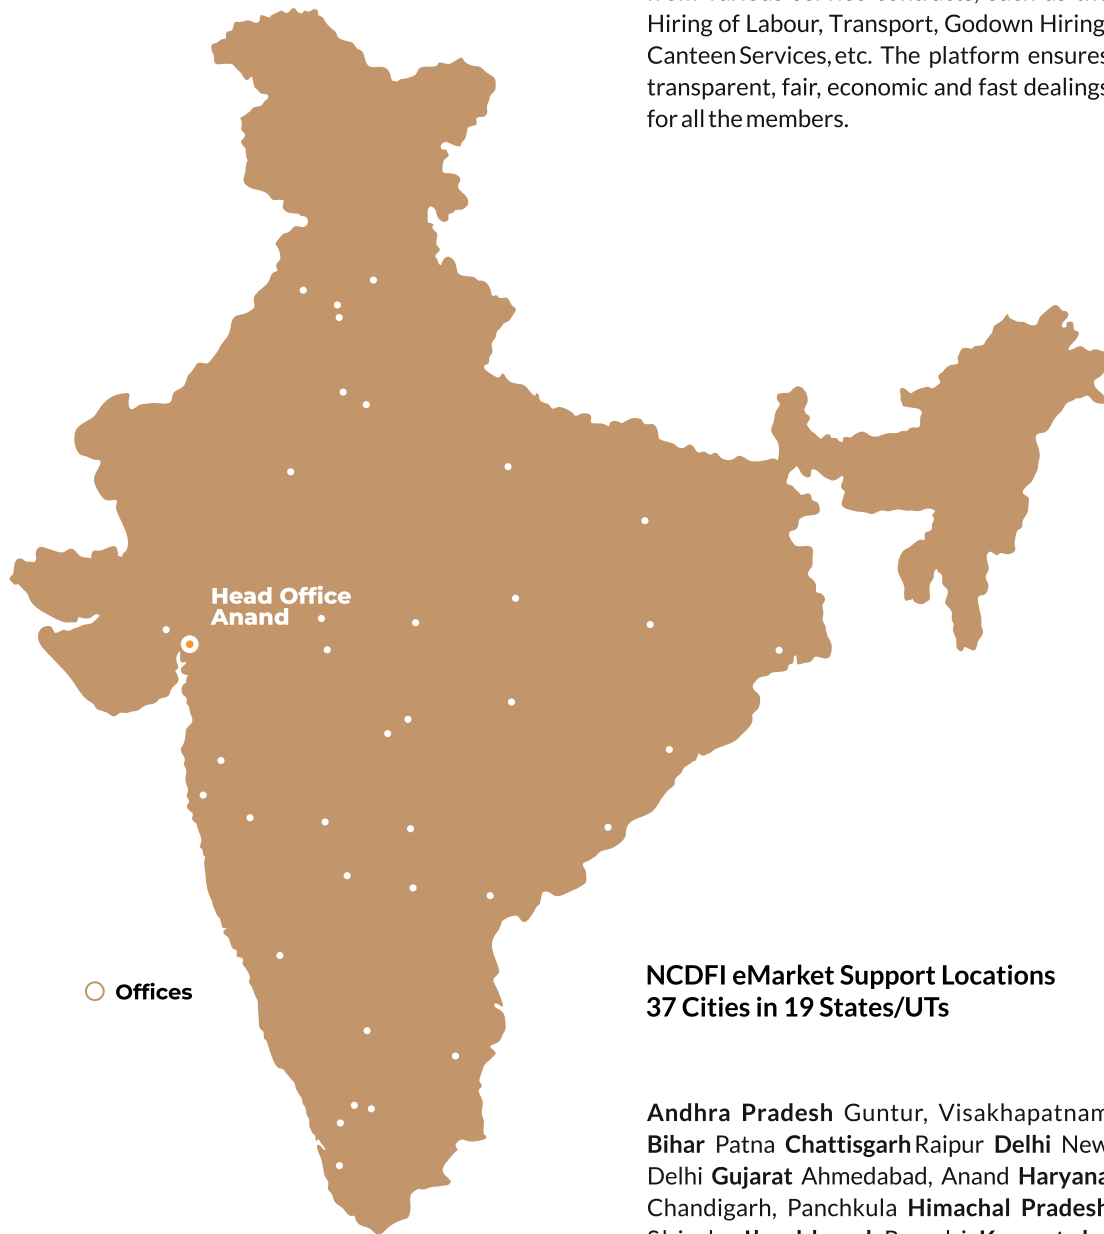

NCDFI eMarket continues to evolve with stakeholder feedback. We shall remain committed to expanding its portfolio, strengthening technology-enabled solutions and creating greater efficiencies across the dairy value chain.

I thank all members, buyers, sellers, partners and stakeholders for their continued support and active participation. Together, let us further strengthen transparent, effective and inclusive digital trade in India's dairy sector.

The adoption of technology and its application to ensure better returns to dairy cooperatives and in turn to milk producers has been the primary focus of the NCDFI. One such initiative is NCDFI eMarket which was launched on June 10, 2015.

The commodities being traded on the NCDFI eMarket platform are Dairy Products, Cattle Feed Ingredients, Edible Oils, Fodder Seeds, Polyfilm and other Packaging Materials, Sugar, Chemicals, Molasses, Scrap, etc., apart from various service contracts, such as the Hiring of Labour, Transport, Godown Hiring, Canteen Services, etc. The platform ensures transparent, fair, economic and fast dealings for all the members.

55 years of domain expertise

No market development support

Continuous market development

Passive Platform

Active and evolving platform

Charges to Cooperatives/Initiator

Free services to Cooperatives/Initiators

Charges even if auction fails

No charge in case auction fails

No dedicated supplier base

Suppliers across the country are enrolled and continuously being enrolled

Reach to targeted audience is limited

Information will be circulated through Whatsapp, e-mails and Mobile app apart from personal follow-up with potential suppliers

eTender/eProc Systems

Request for Quotation (RFQ)

A Smarter Way to Procure Now Live!

Advantages

Cost Efficiency

Encourages competitive bidding to achieve the best value for money.

Compliance & Audit Readiness

Maintain complete documentation to meet regulatory and internal audit requirements.

Data Security (VAPT Certified)

Regular security audits protect sensitive data and ensure platform integrity.

Transparency & Standardisation

Ensures fair, consistent, and traceable procurement through uniform processes.

Streamlined & Time Saving Process

Automates tasks and reduces manual intervention, speeding up procurement cycles.

Insightful Decision Making

Leverage analytics and reports to drive informed, strategic procurement choices.

Vendor Management

Track vendor performance, compliance, and history through a centralised system.

Customisation & Flexibility

Tailor RFQs to specific needs, project scopes, and vendor categories with ease.

National Vendor Reach

Access a broad database of verified vendors across the country for greater choice.

Process

Document Preparation

Define scope, specifications, terms, and evaluation criteria.

Defining the Supplier List

Identify and shortlist qualified vendors based on capabilities, past performance, and compliance.

Floating the RFQ

Distribute the RFQ documents to selected suppliers via a secure, transparent platform.

Supplier Query Resolution

Allow vendors to clarify doubts, ensuring better, more accurate responses.

Quote Submission

Receive bids from suppliers within the stipulated deadline, securely and systematically.

Technical Evaluation of Suppliers

Assess technical proposals against predefined requirements and specifications.

Commercial Bid Opening

Open commercial bids of technically qualified vendors in a transparent and traceable manner.

Commercial Evaluation

Compare pricing and commercial terms to identify the most cost effective and compliant offer.

Negotiation (if applicable)

Engage with shortlisted vendors to improve pricing or terms before final decision making.

Finalisation of Contract

Award the contract to the selected vendor(s) and formalise the agreement with defined deliverables and timelines.

Post-RFQ Feedback / Vendor Onboarding

Provide feedback, handle documentation, and onboard the vendor into procurement system.

Applicability

Service Contracts

IT support, housekeeping, AMC, security, consultancy.

Capital Expenditure (CapEx)

Machinery, equipment, vehicles, or infrastructure investments.

Operational Expenditure (OpEx)

Office supplies, consumables, utilities, and minor equipment.

Civil & Construction Jobs

Contracts for construction, renovation, plumbing, electrical, or other infrastructure related works.

IT & Digital Procurement

Hardware, software licenses, cloud services, cybersecurity tools, and development services.

Annual Maintenance Contracts (AMC) & Repairs

Service agreements related to maintenance, inspections, and repairs of systems and assets.

Consultancy & Professional Services

Hiring subject matter experts or firms for advisory, audit, training, design, or legal services.

Manpower & Outsourcing

Engaging vendors for temporary staffing, facility management, customer support, or field operations.

Logistics & Transportation

Procuring freight services, courier vendors, vehicle hiring, or delivery networks.

Utilities & Facility Management

Electrical, water treatment, pest control, cleaning, and landscaping services.

IT Solutions for Related Organisations

During the year, NCDFI ventured into offering IT solutions to related organisations, thereby broadening the scope of its service portfolio. This initiative reflects the Federation's growing capabilities in the technology domain and its endeavour to extend professional and value-added services beyond its traditional areas of operation. It also marks a step forward in diversifying NCDFI's service offerings in line with emerging sectoral needs.

Activity Reports that provide comprehensive insights into the trades concluded at “NCDFI eMarket” during the preceding month are published regularly to ensure transparency, accountability, and informed participation among stakeholders. These reports serve as a reflection of the platform's continuous growth and commitment to strengthening India's dairy ecosystem through digital trade facilitation.

For the cover pages of the Reports during the financial year 2025–26, the chosen theme was “Nature's Changing Moods” celebrating the beauty, diversity, and timeless charm of landscapes across different seasons. Each cover visually captures a unique atmosphere, symbolizing progress, harmony, and the evolving journey of the dairy sector alongside nature.
